

SEEDS OF CHANGE: PIONEERING INNOVATIVE INTERACTIVE TRAINING FOR SUSTAINABLE GROWTH

PAMEA's and SELFHOOD's training introduced the innovative **KIVI model**, a cutting-edge interactive training approach designed to empower participants with practical skills and linking logically healthy farming and entrepreneurship.

Blending Knowledge, Innovation, Value creation, and Impact, **KIVI model** fostered dynamic involvement, enabling all participants to explore sustainable practices and develop actionable business strategies, equipping them with the tools to drive meaningful change in their communities and beyond.

ROOTING INNOVATION: SUSTAINABLE SOLUTIONS IN AGRICULTURE AND FOOD SYSTEMS

CTNC and IBA focused on equipping participants with practical skills in regenerative agriculture, innovative food production, and resource-efficient solutions. The expert-led sessions offered to attendees info on sustainable techniques to enhance productivity and environmental resilience in small-scale farming.

CULTIVATING INNOVATION: EMPOWERING CHANGE IN JORDAN

✧ Jordan mobility, hosted by SYL and organised in Amman in the Wild Jordan Center, offered a comprehensive and hands-on training program focusing on regenerative agriculture, sustainable practices, and entrepreneurship. Participants engaged in the planning of a small regenerative garden with SMART monitoring systems, and explored resource-efficient solutions tailored for small-scale farms. The program concluded with the establishment of the Jordanian Experimental RE-GEN Entrepreneurs Incubator, inspiring attendees to lead sustainable initiatives and foster community-driven change.
